WHAT CHANGES DECEMBER 1

Two trainings + current disclosures = proposal-ready

Research security program requirements under NSPM-33 and the CHIPS and Science Act are moving into the annual compliance cycle.

01	**Current COI disclosure**	Complete and update the required disclosure profile in Insight.
02	**Research Security training**	Complete the Research Security module in Brainier.
03	**Export Control training**	Complete the Export Control module in Brainier.

Proposal impact: submissions may be delayed until the disclosure and both trainings are complete.

PREPARE NOW

Training rollout, testing and compliance visibility

The dual-module experience is in testing, and volunteers are welcome to help refine the learner experience before launch.

NOW
Test
Dual-module testing in Brainier

BEFORE DEC 1
Complete
COI disclosure + both trainings

ONGOING
Monitor
Dashboard visibility for research teams

TESTERS WELCOME

Volunteer to test the dual-module experience

Help identify navigation, content and completion-tracking issues before launch.

COMPLIANCE DASHBOARD

Insight feed update in progress

Work is underway to provide more current training, disclosure and research-personnel details.
