- NSF funded the creation of 4 research security training modules – available in January 2024
  - The Importance of Research Security
  - The Importance of Disclosure
  - Risk Management and Mitigation
  - International Collaboration
FTRP Foreign Talent Recruitment Program
MFTRP Malign Foreign Talent Recruiting Program

- CHIPS and Science Act prohibits... awardees, including institutions, individual investigators, and other key personnel from participating in malign foreign talent recruitment programs (MFTRPs)
- It’s complicated
- FTRP an effort organized, managed, or funded by any foreign government or entity, to recruit science and technology professionals or students
- MFTRP a talent program requiring one or more problematic actions and having problematic sponsorship
- Basically, a program sponsored by either China, Russia, Iran, or N. Korea that requires a researcher to engage in unauthorized transfer of IP, amongst other activities...
- Effective August 2024
- FTRP must be disclosed; MFTRP Prohibited; Consequences
- §19231. Requirements for foreign talent recruitment programs
- For more information see RCRA’s Research Security’s Foreign Talent Recruitment web page

TikTok Ban

- **FAR 52.204-27** must be included in all solicitations issued after June 2, 2023.

- The new (interim rule) TikTok ban broadly prohibits contractors (awardees of federal funding) from having or using TikTok or other applications owned by ByteDance Limited, a privately held company headquartered in Beijing, China on any device used in the performance of a government contract. The ban applies regardless of whether the technology is owned by the government, Emory, or the Emory’s employees, faculty, staff, visiting scholars, or students. Bottom line is that the rule has a broad reach.

- Individuals who have the TikTok application on a University or personally owned device (such as a computer or cell phone), and who use or intend to use such device in the performance of a federal contract that contains FAR clause 52.204-27, must immediately remove the TikTok application.

- An action plan, FAQ, webpage and communication is in the works.

- In the meantime, OSP is collecting an attestation from investigators submitting new proposals that their project will comply with the ban.

TikTok Ban Possible Actions Under Consideration

• Website
• FAQ
• Targeted communications to faculty & staff
• Targeted communication to students
• Block access on Emory network
• Block does not affect student residences network
• Researcher attestations
• Gather a list of official institutional TikTok accounts and assess needs
• Management by IT of Emory owned devices
