Houses ~2500 NHPs across 3 species

Preparing for AAALAC

Program Description Preparation (>200 pages)

Facilities Preparation prior to site visit

- Extra focus on general maintenance like painting, getting repairs completed, etc.
 - Impacts to investigators to access animal areas

PI Preparation for site visit

- Similar to prep for IACUC Inspection
- Making sure IACUC protocols are up to date and lab members are knowledgeable on protocol
 - Making sure animal records are complete
 - Lab space preparation: clean, no expired drugs or food, etc.

Site Visit

- Touring with site visitors to all animal housing and support areas and research areas where animals are brought
 - Answering questions and gathering documents for review
