# **Emory IACUC Newsletter**

# September 11, 2023

### In this Issue...

- IACUC Policies that have been updated recently
- <u>Reminder of responsibilities to all investigators</u>
- The exemption for using single-dose non-bacteriostatic sterile injectable saline or water has been terminated
- DAR training and OHS Questionnaire for Animal Handlers are moving to Brainier
- Do you have a JIT submission?
- Ask RCRA forum September 21<sup>st</sup> @ 12 noon
- Do you know if you have Compassion Fatigue?
- elacuc software updates
- Updated Use of Flowmeters for Mouse and Rat CO2 Euthanasia for SOM Researchers
- Surgeons should be listed with the Surgeon Role and assigned to the surgical procedure
- Additional resources for researchers Example for completing a surgical log
- IACUC Site Inspections
- <u>Contact Us</u>

# IACUC Policy Updates

The IACUC updated the following policies

- <u>309 Identification and Genotyping Methods</u>
- <u>303 Aseptic Survival Surgery in Rodents, Birds, Amphibians</u>
  - Note changes in the Surgery Log

The IACUC Policy 304 Tumor Burden Scoring Policy was updated on 3/15/2023: This update includes NEW

recordkeeping requirements, new scoring scales, and resources for scoring tumor burden. See March

Please sign the Post Approval Attestation of Responsibilities Reminder

To decrease noncompliance events related to personnel **NOT READING** the approved protocols and modifications, the IACUC charged the IACUC Office with sending out a reminder of the responsibilities to the PI and each member of the research team. This reminder or attestation is sent to research teams receiving approval letters for new protocols and triennial renewals. This document is sent using DocuSign. Each member of the research team is tagged for signing the document. The completed version returns to each member for your records.

TAKE NOTE: The exemption for using single-dose non-bacteriostatic sterile injectable saline or water was terminated on 9/3/2023

The IACUC voted to terminate the **Exemption for using single-dose non-bacteriostatic sterile injectable saline or** water on September 6, 2023. Please contact your DAR unit if you have any questions.

#### DAR Training and OHS Questionnaire are moving to Brainier

Go back to Top

brainier

✓ What are we doing? The IACUC team is working on moving existing courses from ELMS to Brainier.

The feeds into eIACUC should be completed by the end of September 2023.

✓ The **OHS Questionnaire for Non-EPC Animal Handlers** will also be moved to Brainier. Starting October 1<sup>st</sup>, you will receive a reminder that you are due for your annual OHS Questionnaire for Animal Handlers. Follow the instructions to complete the questionnaire.

<u>OHS clearance for Non-EPC New personnel</u>: you will be contacted by Employee Health after you sign-in into eIACUC and request the AALAS account.

## OHS clearance for Non-EPC Undergraduate students and Sponsored Accounts:

<u>https://emory.sharepoint.com/sites/eIACUC/SitePages/OHS-Form.aspx</u> > log in with your Emory ID and Password>Click Download a blank OHS Animal Handler Questionnaire> Complete form>Click Gray Box> Outlook email opens with attachment>Add immunization records>Click Send (No CCs)

Do you have a Just-In-Time submission?	Go back to Top
NOT-OD-10-128 defines the "Just-In-Time" process. Congruency is not defined as an exact match. Co	mponents to be
compared include the species, animal numbers, the research field and the procedures to be performed.	
<ul> <li>Contact the IACUC Office at <u>iacuc@emory.edu</u> as soon as you know that you have received a</li> </ul>	JIT request and
it involves work with animal subjects.	
Ask RCRA – September 21, 2023 @ 12 noon	Go back to Top
When: Thursday, September 21st   Time: 12:00pm to 1:00pm	
<b>Registration:</b> <u>https://emory.zoom.us/webinar/register/WN_gZK1sYOHSPCEtfJR5DuwYQ</u>	ting
After registering, you will receive a confirmation email containing information about joining the mee Do you know if you have Compassion Fatigue?	
Take one of the self-assessments: <u>https://www.na3rsc.org/compassion-fatigue/self-assessment/</u>	Go back to Top
To learn more about Compassion Fatigue click <u>HERE</u>	
eIACUC software – Issues with the Upgrade	Go back to Top
The elACUC software was upgraded at the end of August 2023. The smartform logic did not change.	GO DACK TO TOP
However, there are new required fields which will trigger a validation error when submitting an ame	ndment or
triennial, or continuing review (formerly known as Annual Review)	
You can use the <u>JOB AID</u> assembled to resolve the validation error for the euthanasia pro	cedure
Join us every Friday from 12 noon to 2 pm in our Open Line Zoom room if you need assistance to rese	olve these
errors. No appointment needed, just follow this link: <u>https://emory.zoom.us/j/96317076785</u>	
Updated Template for the Use of Flowmeters for Mouse and Rat CO2 Euthanasia for SOM Research training dates	hers -INCLUDES
SOM DAR provided the template "Use of Flowmeters for Mouse and Rat CO2 euthanasia and we hav	e updated the
template to include the name of individuals conducting the procedure and the date the DAR training	was completed.
The first page should be kept with the IACUC protocol binder and the second page "Instructions for C	CO2 euthanasia"
should be posted on your lab space where the procedure is done. Download <u>HERE</u> .
